12/14/2015

The Suwannee Water & Sewer District is doing a 2015-2016 Capital Budget Amendment.

The Capital Budget for 2015-2016 was \$0.00

We are amending the Capital Budget to \$ 540,000 for Fiscal year 2015 / 2016.

The Following Capital Budget amendments are for two projects.

- 1) The Demolition of the old Abandon Water Plant \$58,600. Removal of abandon tanks and building to remove the liability posed to the District.
- 2) The Wastewater Plant Tank Repair and Replacement project is for reconditioning the Wastewater Plant for \$479,898 to meet the re-permitting requirements that are due in 2016.

The above funds are being moved from reserves that were in place for necessary projects of this kind.

Utilizing these reserves in no way effects the current obligations of the District.

The projects bid proposals, qualifications and lowest bidder were managed by North Florida Professional Services, Inc. the District Engineering Services and recommendation were given to the Suwannee Water & Sewer District Board of Directors for approval.

Bob Bogosta  
General Manager  
Suwannee Water & Sewer District.
